

DENTACOIN

The Blockchain Solution for Better Oral Health

*Sick Care is the crisis of the 21st century.
We are shifting the paradigm towards a Health system that Cares.*

What Is Dentacoin?

Dentacoin is the first and only blockchain solution for the global dental industry. It improves oral health globally using:

- 1) a preventive, smart contract-based dental assurance model
- 2) a set of dental apps, incentivising beneficial user behaviour
- 3) a functioning cryptocurrency, used for rewards and payments

Myth: It is for dentists only.

Fact: It is for everyone.

Dentacoin's target audience extends far beyond the narrow blockchain community, creating a solid bridge towards everyday life and existing business environments.

Company Introduction

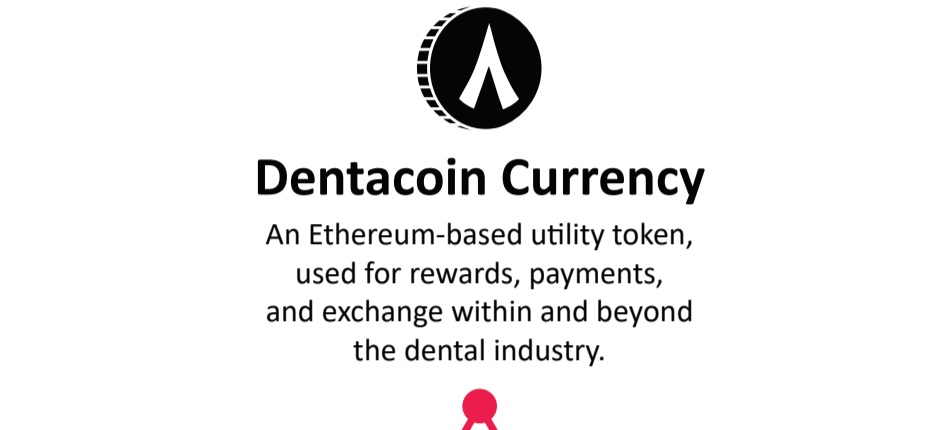

Founded in 2017, the Netherlands-based Dentacoin Foundation is the autonomous organization behind the Dentacoin blockchain-based solutions and the same-named cryptocurrency. The legal structure of the Foundation ensures the proper execution of the mission and protects users' interest as it functions solely.

- 240K+** Active Dentacoin Users and Community
- 285K+** Transactions in DCN Currency
- 2200+** Dental Offices Using Dentacoin Apps
- 148+** Partner Locations Accepting DCN Currency

Why Dentistry?

Problems

- USD 440 billion are spent annually on dental treatment
- 90% of all dental costs are wasted on preventable problems
- Less than 20% of people can afford proper dental care
- 1.6 million dentists fight alone, unable to achieve efficiency

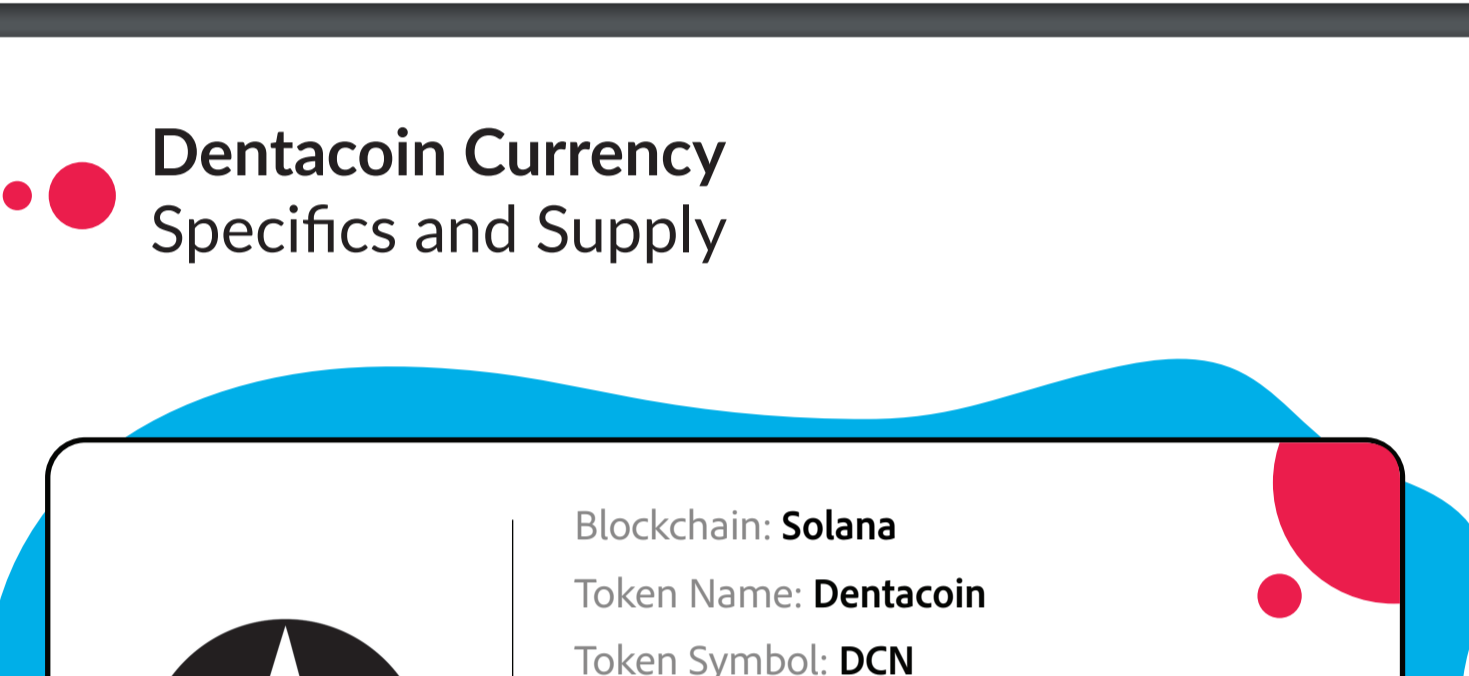

- High level of fragmentation:** Every dentist is relatively independent to decide what solutions to apply at their practice.
- Low degree of industrialization:** High efficiency, automation, optimized productivity are still a mirage for most practices.

Prerequisites

Those underlying factors are not present in the General Healthcare field which makes dentistry the ideal use case for a decentralized, blockchain-based platform solution - such as Dentacoin - to be applied.

Dentacoin Ecosystem

- Dentacoin Apps:** Promoting better oral health and rewarding users for submitting feedback, taking surveys, maintaining oral hygiene.
- Dentacoin Assurance:** The first smart contract-based dental assurance plan, focused on prevention and paid exclusively in DCN currency.

Dentacoin Currency Specifics and Supply

Blockchain: Solana
Token Name: Dentacoin
Token Symbol: DCN
Token Type: SPL
Token Class: Utility

Dentacoin (DCN) is NOT a security – a fact, confirmed in an official statement by the legally responsible assessing party, the Dutch Authority for the Financial Markets.

Initial Total Supply: **8,000,000,000 DCN**

- Coin Burn Sessions:** The excessive amount of DCN supply is being gradually burned to destroy the coins that are not demanded.

Dentacoin Currency Tangible Use Cases

The substantial value of the DCN token is linked to its adoption. The more users operate with Dentacoin apps and currency, the higher its value is prone to grow ("network effect").

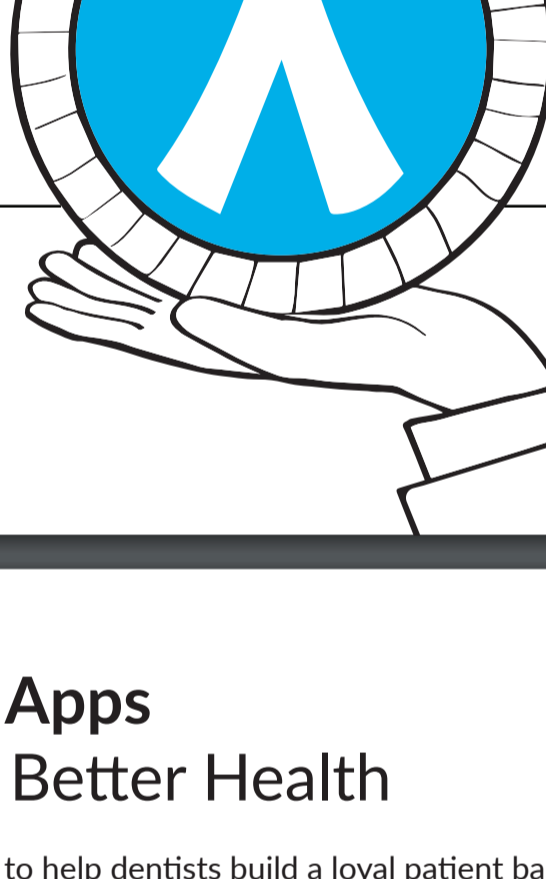

- 285K+** Transactions in DCN Currency
- 148+** Partner Locations Accepting DCN Currency

OTHERS

- Exchanged to other currencies
- Stored for future value multiplication
- Held as a future oral health fund

INCENTIVES

- Earned through Dentacoin apps for:**
- Taking oral health surveys and polls on DentaVox
 - Submitting feedback on Dentacoin Trusted Reviews
 - Maintaining proper oral hygiene with Dentacoin apps
- Earned through work/bounties**
Integrated in loyalty programs

PAYMENTS

- Used by everyone to pay for:**
- Dental treatments
 - Oral care products
 - Dentacoin Assurance fees
- Used by Dentists to pay for:**
- Dental materials
 - Dental equipment
 - Other related services

Dentacoin Apps Rewarding Better Health

Dentacoin apps are designed to help dentists build a loyal patient base and get access to valuable market research data, while simultaneously allowing users to earn Dentacoin (DCN) for their beneficial behaviour.

- 240K+** Active Dentacoin Users and Community
- 2200+** Dental Offices Using Dentacoin Apps

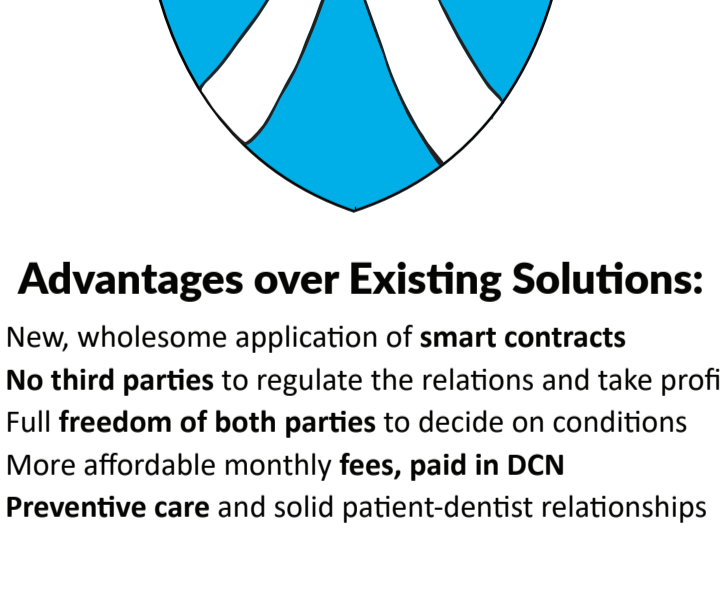

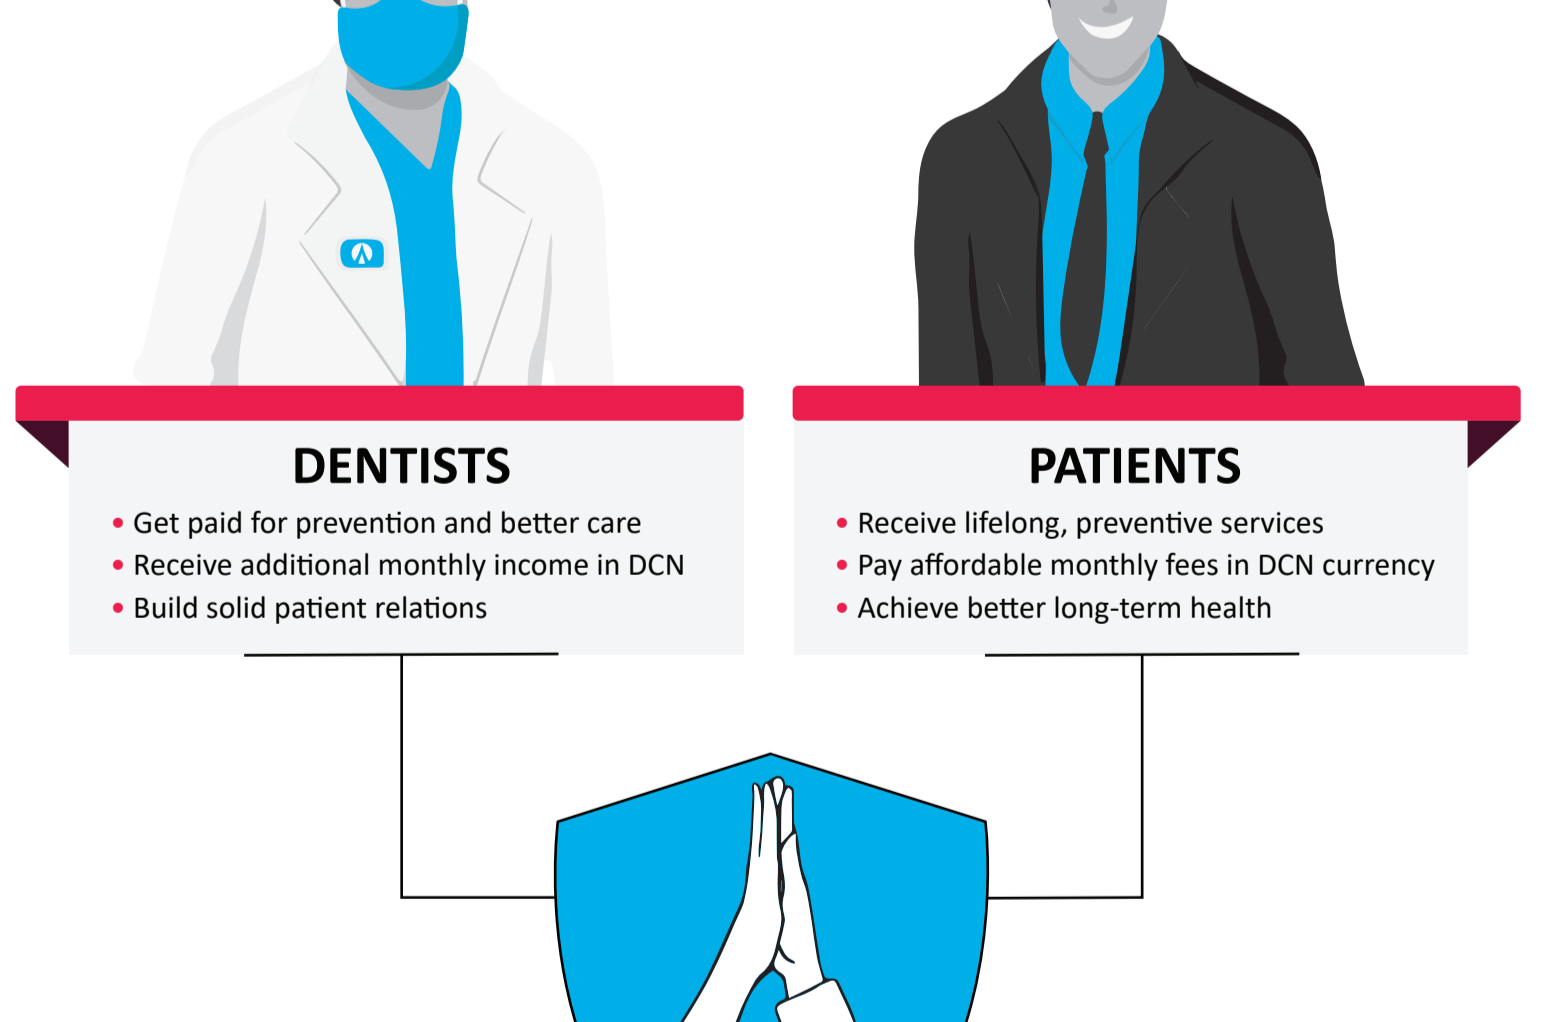

Fully Functioning:

- DentaVox Paid Surveys & Dental Stats:** Market research website that generates valuable market insights, while incentivizing users for taking various oral health surveys.
- Dentacoin Trusted Reviews:** The first platform for verified and incentivized dental reviews that also helps dentists improve their services and online presence.
- Dentacare Oral Health App:** Mobile app that helps users build and maintain oral health habits through embarking on a 90-day challenge. Good results are rewarded.
- Dentacare: Jaws of Battle Game:** The latest collectible card game aimed at indirectly educating children and adults on good and bad oral health habits. Available for Android and iOS.
- Dentacoin Non-Custodial Wallet:** The all-in-one stop for operating with DCN currency that allows users to store, send, receive, buy DCN in a secure and user-friendly manner.

- Upcoming:**
 - Custom Dentacoin Hub app for dentists
 - Dental Health Database
 - Integrated Practice Management Software

Dentacoin Assurance Care more. Cure less.

Dentacoin Assurance is the first dental assurance plan, based entirely on direct smart contracts between patients and dentists. It focuses on prevention rather than acute treatments and is exclusively paid in DCN currency.

Advantages over Existing Solutions:

- New, wholesome application of **smart contracts**
- No third parties** to regulate the relations and take profits
- Full freedom of both parties** to decide on conditions
- More affordable monthly fees, **paid in DCN**
- Preventive care** and solid patient-dentist relationships

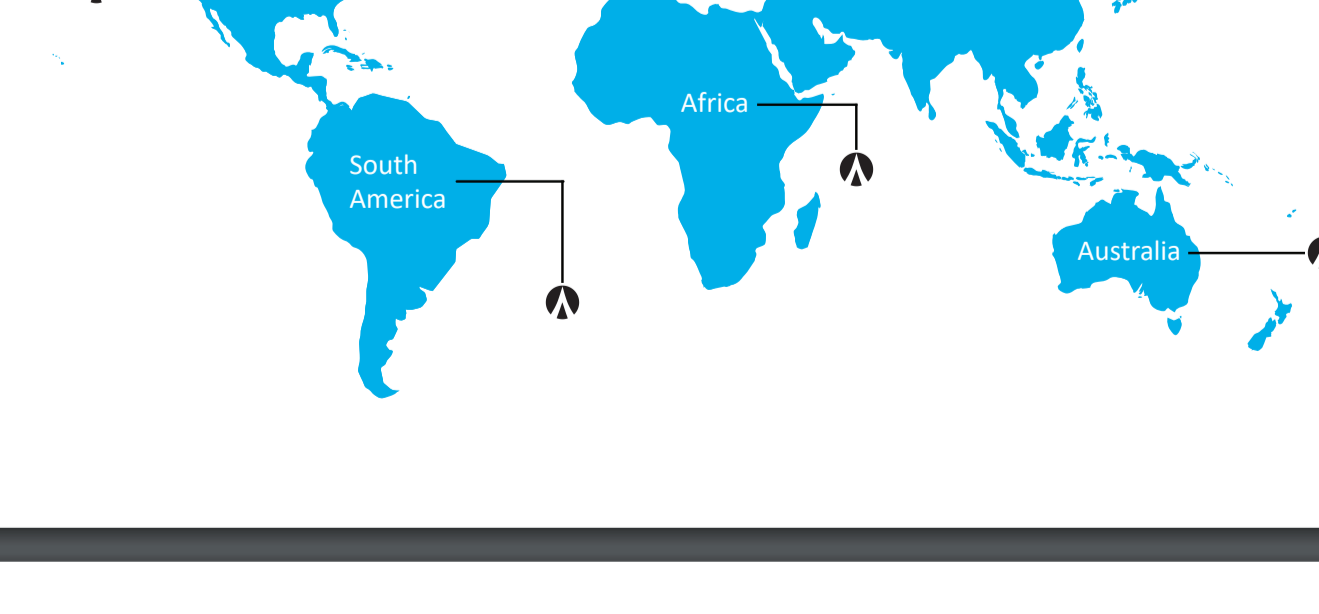

What's Next On the Way to Global Adoption

DEVELOPMENT

- Custom Dentacoin Hub app for dentists
- Dental Health Database
- Integrated Practice Management Software

MARKETING

- Participation in dental industry conferences, exhibitions and podcasts
- Acquiring new dental practices as users and partners
- Providing more exchange options to holders, traders, and users alike
